<b>Preferred method of shipping:</b> <input type="checkbox"/> US Postal Service <input type="checkbox"/> Ground (3 - 7 days) <input type="checkbox"/> 2 Day Air <input type="checkbox"/> Next Day Air <b>Note:</b> All 312 & 612 Trial Systems must be shipped by common carrier due to size.			

**Please send me the following items I have checked off:**  
 Note: Shipping and State Sales Tax (where applicable) will be added to all orders.

<input type="checkbox"/>	<b>Water Analysis</b> — A water analysis will determine water treatment needs and suitability for hydroponics.	\$75.00
<input type="checkbox"/>	<b>Crop-Specific Custom Nutrient Formulation</b> —Grower provides source water analysis.	\$125.00
<input type="checkbox"/>	<b>Water Analysis and Crop-Specific Custom Nutrient Formulation</b> Using the water analysis, we will custom design a crop-specific nutrient formula. You can then order your nutrient that will be made with this custom formulation.  Please send us 16 oz. (.5 liters) of your source water (any store-bought water container works well). What crop? _____ Water Source? _____ Recirculating? _____ Winter or Summer? _____ Are you using Ozone? _____ Drain to Waste? _____	\$200.00
<input type="checkbox"/>	<b>612 NFT System for Fancy Lettuce and Herbs</b> This 6' x 12' complete system includes: all plumbing reservoir, gullies, manifold, pump, propagation material, seeds, Evolution Solution Crop-Specific Nutrient, Commercial Truncheon Conductivity Meter, pH control kit, "Hydroponics Explained" video and "Hydroponics Lettuce Production" by Dr. Lynette Morgan	\$1,225.00
<input type="checkbox"/>	<b>312 Complete NFT System for Tomato, Cucumber, Pepper</b> (please circle one)	\$1,050.00
<input type="checkbox"/>	<b>312 Complete NFT System for Strawberry</b> These 3' x 12' complete systems include all plumbing reservoir, gullies, manifold, pump, propagation material, seeds, Evolution Solution Crop-Specific Nutrient, Commercial Truncheon Conductivity Meter, pH control kit, crop specific book	\$1,200.00
<input type="checkbox"/>	<b>Business Planning Kit "How to Start and Succeed In the Hydroponic Business"</b> • Investigating feasibility • Making a Plan • Selecting a location • Establishing a market • Greenhouse construction • Day-to-day operation • Tips, tricks and vital information • Included is a sample business plan for a working tomato or lettuce farm	\$49.95
<input type="checkbox"/>	<b>"Hydroponic Crop Production"</b> by Rob Smith and Lon Dalton (included with 312 Trial Systems)	\$74.95
<input type="checkbox"/>	<b>"Hydroponic Food Production"</b> by Howard Resh, PhD.	\$49.95
<input type="checkbox"/>	<b>Information on the Complete Hydroponic Growers Conference</b>	N C
